AGNC IS AN INDUSTRY LEADER

At AGNC, opportunity is an asset.

AGNC was formed in May 2008 – in the midst of the Great Financial Crisis – when our founders saw an opportunity to create a best-in-class Agency MBS investor with a differentiated approach.

Since then, we have navigated a myriad of market cycles, exogenous events, and macroeconomic volatility, producing exceptional long-term returns for our stockholders and facilitating American homeownership.

Disciplined Risk Management Strategies that aim to protect the value of our portfolio from market risks

Our investment portfolio is over 99% comprised of Agency MBS assets, including pass-through certificates, collateralized mortgage obligations (CMOs), and “to-be-announced” securities (TBAs). These assets benefit from a guarantee from Fannie Mae, Freddie Mac, or Ginnie Mae, which substantially eliminates credit risk and protects us in the event borrowers default on their mortgage payments.

We also allocate a small portion of our capital to non-Agency investments, or credit securities, including GSE credit risk transfer securities (CRT). While these assets are not our primary focus, maintaining these investment capabilities provides meaningful flexibility in the event of significant shifts in market opportunities.
